

In-House Lunch & Learn

A CPD Programme to help all employees keep up-to-date

There never seems to be enough time during the day to get everything done. You can't spare people to go to training because there is so much work to be done, but you also can't neglect their training and development. Learn at Lunch (or whatever time that suits you) is a way to get more training done by making the lunch hour multi-tasking.

Workshop Content

Each session is structured as follows:

Question and Answer - Each session will have a 5-10 minute revision from the previous workshop to reinforce the previous session. The facilitator will also look to the audience to demonstrate that they are keeping up with news and issues that impact their activities and regulated business.

Regulatory and Compliance Update - This part of the session will take up to 15 minutes depending on events and changes since the last meeting. The session will focus on regulatory market issues such as Anti Money Laundering initiatives and updates.

Specific Topic - The final part on specific areas of the regulatory Environment which will be identified during the year.
