

## Chris Park

Chris is the Co-founder of DeFinity Markets, an institutional ECN and DeFi marketplace for Digital Assets. He is also the Chief Strategy & Finance Officer at DeFinity and DMALINK, a leading electronic trading and market data venue for institutional EM FX.

Previously, Chris worked as a Managing Director at WeOwn, a blockchain business focused on the finance industry. He has extensive experience in investment banking, corporate finance, and markets, having held roles at RBS and LBG.

Chris has been actively involved in bringing structured products to market, managing credit and risk, and participating in regulatory initiatives such as the FCA's Crypto sprint. He discusses Digital Assets across various asset classes, including Fixed Income, Private Credit, and ecosystem development.
